to its water supply, had a primitive system, far behind Boston, Baltimore, Philadelphia and other places.

Prior to 1558 there were in New York no public wells. The inhabitants were supplied by private wells, and it was the custom for several families to join Roman year had 355 days, and there were the respect time. the custom for several minimum and the expense of constructing a well, was so much variance between the civil which was used in common by the mall, and the astronomical year that the au-The first public well in New York was constructed on the Battery. This was petitioned for in 1658 by the burgomasters. It was the great resort of the inhabitants during the period of Dutch rule. In 1677 an order was given that the following places. "wells be made in the following places fit, which naturally gave rise to corrup-by the inhabitants of the streets con-tion and fraud, interfering with the du-

by the inhabitants of the streets concerned: One opposite Roelof Jansen, the butcher's; one in Broadway, opposite Van Dyck's; one in the street opposite Derick Smith's; one in the street opposite John Cavalier's; one in the yard of the city hall; one in the street opposite Cornelius Van Borsum's." In 1687 seven other public wells were ordered.

The system of constructing public wells during the earlier part of the last century was by means of a contribution of £8 by the city government, the tion of £8 by the city government, the the sixth before the calendo, or 1st of remaining expense being defrayed by the people residing in the neighborhood, noncest whom was allowed to use the wall putil he had contributed by the wall putil he had contributed by

the well until he had contributed his proportion of the expense.

In 1750 pumps came into use, and an act was afterward passed by the assembly to enable the city to raise a tax for by A. D. 1582 the error amounted to bly to enable the city to raise a tax for constructing and keeping in repair the wells and pumps. The subject of procuring a supply of water by means of large wells, pumped by machinery, and thrown into an elevated reservoir from which it might be led through the city in wooden pipes, was brought before the common council as early as 1774 by centenary year except the fourth. Thus in wooden pipes, was brought before the common council as early as 1774 by Christopher Collis, who is sometimes styled the father of improvements in the water supply of this city. The rules established by him and altered from time to time to conform to the growth of the city must seem at this day onerous to many, for they appear to have been based upon the idea that water was a commodity to be dealt in, a precious commodity, and that it should at all times be used as sparingly as positive. all times be used as sparingly as possi- the year 2000 A. This is the true story of a certain young woman who got on an up town car at Eighteenth street. It was nearly The use of the surgeon's knife is becoming so general, resulting fatally in such a large number of cases, as to occasion general alarm.

Mr. William Walpole, of Walshtown, in such a large number of cases, as to occasion general alarm.

Mr. William Walpole, of Walshtown, Mr. William Walpole, of Walshtown, South Dakota, writes; "About the wind in speaking or writing of nautical matters, this distinction—that a mile is a unit of speed.

There are two kinds of miles—a statute or land mile and a nautical or sea mile.

A statute mile is 6, 280 feet long. It is our standard of itinerary measure adopted from the English, who in turn adopted it from the Romans. A Roman amilitary pace, by which disances were measured, was the length of the step taken by the Roman soldiers and was approximately 5 feet long. A thousand of these paces were called in Latin a mile. The English mile is, therefore, a purely arbitrary measure, enacted into a legal measure by a statute passed during the reign of Queen Elizabeth. It has no connection with any scale in nature.

A nautical mile, on the other hand, is equal in length to one-sixtieth part is a good to mark its remainded or sale, as to occasion general alarm.
